EXPERIENCE

Full Stack Developer

Eazybyts web solution

📅 11/2024 - 12/2024 📍 Work Form Home

🔗 https://mayank-goel1594.github.io/portfolio/

During my internship at EazyByts Web Solution, I worked on developing a personal portfolio website. I was responsible for designing and implementing the user interface, optimizing the site for mobile and desktop views, and using the skills like HTML, CSS, and JavaScript. This project allowed me to enhance my front-end development skills.

PROJECTS

Amazon clone site

📅 08/2024 - 09/2024 📍 panipat

🔗 https://mayank-goel1594.github.io/Amazon/

As a Frontend Developer for the Amazon Clone site, I was responsible for designing and implementing the user interface, ensuring a responsive experience across both mobile and desktop platforms. Using HTML,CSS,JAVASCRIPT, I focused on creating a clean, layout and smooth navigation and responsiveness.

Stone Paper Scissors game

📅 07/2024 - 08/2024 📍 panipat

🔗 https://mayank-goel1594.github.io/SPSgame/

I developed a Stone Paper Scissors game using HTML, CSS, and JavaScript, focusing on creating an interactive and user-friendly experience. I implemented game logic to handle user input, generate random outcomes, and display results dynamically.The game is played against the computer. The game keeps track of the number of wins and losses

Home Page site

📅 01/2025 - 01/2025 📍 panipat

🔗 https://mayank-goel1594.github.io/mithas-sweets/

I developed a Home Page Site , I was responsible for designing and implementing the user interface, ensuring a responsive experience across both mobile and desktop platforms. Using HTML,CSS .I focused on creating a clean, layout and smooth navigation and responsiveness.
